Procurement & Installation

AWARDS

NAHB 2016
"Best of 55+ Housing Award"

PROGRAM

A new community with a three-story 137,000-sf active adult (55+) apartment building with seventy (70) units and twenty (20) cottages.

DESCRIPTION

Located in suburban Denver, The Avenues at Crofton Park is a Senior Boutique Community with both apartment homes and stand-alone duplex cottages.

As a member of the Owner's team tasked with developing a prototype community, Design Services created interior and exterior living spaces that establish a brand standard for The Avenues' communities.

Interior finishes and furnishings were selected in a palette of warm earth tones layered in textures to allow the owner-curated artwork and the spectacular vistas to take center stage. Custom elements from lighting to furniture further establish the community as a unique destination for senior living.
