LOCATION

Harleysville, PA

PRACTICE AREA

Senior Living

CLIENT

Westrum Development,
Heritage Senior Living

STATUS

Completed 2014

SERVICES

Interior Design
Conceptual Design
Procurement & Installation
Renovation

PROGRAM

A three-story 127,000-sf expansion with 125 new independent living apartments.

DESCRIPTION

The addition, called Hillside, of 125 new apartments nearly doubled the size of Arbour Square's existing vibrant independent living community. A continuum of care is available on the 22-acre campus with an assisted living and memory care community called The Birches. Design Services also provided the interior design for The Birches, completed in 2009.

Finishes and furnishings were carefully selected to balance the need for an updated aesthetic in the expansion while still relating to the interior tone set in the existing building.

Extensive renovation was required at the junction between the two buildings which occurred at the main dining room. The expanded dining supports the client's renewed emphasis on improving the dining experience with both sit-down restaurant-style dining and buffet service.

Additional amenities in the expansion include fireside lounges, a competitive billiards and card room and a spacious arts and crafts room.
