Heritage Green of Hanover  
Assisted Living

## LOCATION

Mechanicsville, VA

## PRACTICE AREA

Senior Living

## OPERATOR

Heritage Senior Living

## STATUS

Completed 2016

## SERVICES

Interior Design  
Conceptual Design  
Procurement & Installation

## PROGRAM

Full renovation of the existing 20,500-sf building and 14,500-sf of new construction. The newly expanded Heritage Green of Hanover is comprised of eighteen (18) memory care suites and thirty-two (32) assisted living apartments.

## DESCRIPTION

In order to meet the requirements of current care models that encourage independence and support choice, the team at Heritage Green embarked upon a full renovation of public spaces and private apartments while increasing the building's footprint with a new addition.

All assisted living units were modified to add tea kitchens and individual showers. Where staff assistance is required, the bathing room was redesigned and renovated with spa-like amenities.

The renovation and expansion brought fresh amenities for the residents to enjoy and share with family and friends including a new fireplace lounge, cafe with Starbucks experience, beauty salon, and newly landscaped grounds and courtyards.
