PROJECT NAME

Mountain Plaza Assisted Living

LOCATION

Casper, WY

PRACTICE AREA

Senior Living

CLIENT

The Encore Partners

STATUS

Completed 2012

SERVICES

Interior Design
Conceptual Design
Procurement & Installation

PROGRAM

Single-story 43,000 SF senior community comprised of two residential neighborhoods; forty-four (44) assisted living and thirteen (13) memory care apartments.

DESCRIPTION

Mountain Plaza Assisted Living is the second development project for the Encore Partners and represents another collaboration with Design Services. Design Services developed the prototypical interior design for the Encore Partner's first senior living project, Deer Trail Assisted Living, located in Rock Springs, Wyoming.

Properties are well appointed with desirable amenities such as a salon and spa, community living rooms, a bistro, game room, as well as flexible spaces for movie watching, spiritual services and life enrichment activities. Interior finishes and furnishings that contributed to a warm and inviting home-like environment with a nod to Wyoming's mountain lodge character were carefully selected to enrich residents in assisted living and dementia care.
